

Full Stack Developer | Leno Micheal G

Madurai, India

+91 7010564134 | lenomicheal8@gmail.com | LinkedIn

Professional Summary

Passionate Full Stack Developer with hands-on experience building modern web applications using React.js and Next.js. Experienced in integrating REST APIs and working with AWS cloud services including Lambda, API Gateway, DynamoDB, S3, and EventBridge. Interested in developing scalable and efficient web applications.

Professional Experience

Web Developer Intern — SoftMania Technologies

Oct 2025 – Present

- Developed an **Admin Dashboard** to track and manage users from Zoho TrainerCentral.
- Contributed to a **Credit-based lab environment system** enabling usage-based cost tracking for users.
- Improved **Payment security** by validating **Razorpay order ID** and **payment ID** in **Server-side** and in **AWS Lambda**.
- Integrated **AWS EC2 security groups** into the Lab Wizard platform for secure lab environments.
- Built a **Purchase page** allowing users to buy lab environments with multiple server configurations.

Technical Skills

Programming Languages: JavaScript, Python, SQL

Frontend Development: React.js, Next.js, Tailwind CSS, HTML5, CSS3, Bootstrap

Backend / Cloud: AWS Lambda, API Gateway, DynamoDB, S3, EventBridge

Tools & Platforms: Git, GitHub, Postman, Vercel, Netlify, Railway

AI Tools: Vercel(V0), Codex, Antigravity, Claude

Projects

Admin Management Portal for Lab Platform

- Developed an **Admin Dashboard** to manage **users and lab environments** using data integrated from **Zoho TrainerCentral**.
- Implemented features allowing administrators to **add community members**, **add credits**, **assign labs**, and manage **user labs**.
- Integrated backend APIs using **AWS API Gateway** and **AWS Lambda** to manage user operations and platform data.

Credit-Based Lab Platform

- Implemented **Google Single Sign-On (SSO)** authentication to allow users to securely access the lab platform.
- Developed logic to **verify and manage users** by checking user records in **DynamoDB**.
- Created a **user registration form** for new users to collect required details before accessing lab environments.
- Built a **server provisioning status toast** to display real-time environment creation progress and tracking.

Education

The American College

Aug 2022 – May 2025

Bachelor of Computer Applications (BCA)

Nxtwave Technologies

Oct 2023 – Dec 2025

Full Stack Developer (MERN Stack)

Certifications

- Nxtwave– Build Your Static Website, May 2024
- Nxtwave – Build Your Responsive Website, May 2024
- Nxtwave – Introduction to Databases, May 2024
- Nxtwave – Build Your Dynamic Website, June 2025
- HackerRank - Python(Basics), Sep 2025
- HackerRank - Javascript(Basics) Sep 2025
